

# TAE PD WEEK

30 November – 4 December | Online

In June, Velg Training and MRWED united to provide Trainers and Assessors with the opportunity to participate in affordable, quality, professional development during TAE PD Week.

We received exceptional feedback from this event, with many participants requesting a repeat so they could attend more sessions, so we will see you from November 30 with a repeat!

TAE PD Week is designed specifically for Trainers and Assessors to assist them with meeting their ongoing trainer and assessor requirements under the Standards for RTOs (2015) and will provide tips and resources for applying key knowledge contained in the Certificate IV in Training and Assessment.

The webinars that make up our TAE PD Week have been developed by industry experts to ensure that the content of each session compliments your existing knowledge and skills. They have been created to align with components of the 9 core units from the latest TAE40116 qualification, so that they relate directly to providing training and assessment in a competency-based environment.

**Have you undertaken any recent PD activities that maintain, upgrade and/or develop how you train and assess?**

## COST

# \$55

per webinar  
including GST
