

Suggested Evidence for a Delegation Audit

WORKSHOPS
2017

Workshop information

To reduce the regulatory burden on Registered Training Organisations (RTOs) the Australian Skills Quality Authority (ASQA) has been allowing some high performing RTOs to manage their own scope of registration through a delegation arrangement. As part of this arrangement, RTOs are required to develop and implement a documented quality assurance system to enable compliance with VET regulatory functions and operations as well as the VET Quality Framework.

If you are one of these RTOs that has a delegation are you meeting your obligations in relation to compliance with your delegation agreement? This workshop will discuss the arrangements that need to be in place, how to measure your performance against the delegation agreement and suggestions for the evidence that is required at audit.
