

2025 Attendees who responded to the question: What future topics would you like to see in the program?

- Funding sources! – Apprenticeship funding
- More leadership sessions
- More on AI
- More around diverse needs and reasonable adjustment options besides just ‘more time’
- VET as a pathway to higher level jobs
- Compliance – classification of best practice
- Validation more on the how-to
- Real RTOs talking about what they do and how they do it!
- It would be great to see representation from state funding bodies
- More hands on stuff
- More masterclass style session – that go into depth for intermediate to advanced levels
- More sessions dedicated to VET in Secondary Schools
- internal audits how RTOs can strengthen assurance - what now needs to be checked and documented
- Presenters that explicitly work in the VET in school space
- documenting supervision arrangements for trainers and assessors
- Id love to see more sessions from specialists who have dealt with the serious end of risk, how they mitigated it and what actions we should be taking now
- Recognition of Prior Learning
- Industry & Community Engagement
- What high-quality RPL looks like under the Standards
- More for online facilitators and online delivery (student engagement with online)
- Basic administration, reporting requirements
- Specialised RTO Management sessions – especially insights from recent audits
- More real-life experiences
- School based apprenticeship funding
- ‘Meaty’ sessions for trainers/facilitators
- Specific online delivery techniques
- Leadership and governance
